

## Making A Difference

Your donation can make a difference! Help support the St. Demetrios Iconography Project. You can contribute to transforming our church.

The proposed iconography of St. Demetrios is a veritable jewel representing a dynamic affirmation of a spiritual and artistic achievement in the Greek Orthodox byzantine religious tradition.

You can contribute to transforming our church.

## General Questions!

- Q. I want to give a major donation that will be matched. May I have a dedication added to the icon in memory of a loved one or family name?
- A. **Of course. What better way to honor someone than provide a permanent icon for the church.**
- Q. Does the church need more lighting after installation?
- A. **Before the completion of the project, this is difficult to determine. We hope existing lighting is sufficient. If not, this matter will be addressed by the parish council at that time.**

## Leave A Legacy

To date, we have restored, preserved and protected the original lights, stained glass windows, terrazzo architecture, style and concept of the vision of our St. Demetrios founders.

With your help, we now need to complete the iconography that was never completed by our founding fathers.

The iconography of Panagiotis and Demetri Christodoulou is seen as the boundary between two worlds: the divine and the human; a permanent and transitory experience. YOU can contribute toward this miraculous vision.

Nicholas and Demetri Christodoulou are the same iconographers who decorated the Monastery of Agia Skepi.

## Matching Donations

Through the generous donation of an anonymous donor, our church has been blessed by the grace of our Lord Jesus Christ with an opportunity to have the entire iconography accents started and completed on time.

Through matching funds the donor will give up to \$100,000 TO BE MATCHED. Because of this, we will receive a thematically and color-coordinated restoration in time for our 100th celebration.

## Project Specifics

**Donated funds will be strictly and solely used for the iconography project. The iconographers were approved by His Eminence Metropolitan Evangelos. The work of these iconographers can be found on-line and in churches and monasteries in the United States and in Greece. All iconography in the Agia Skepi chapels has been done by the Christodoulou brothers.**
